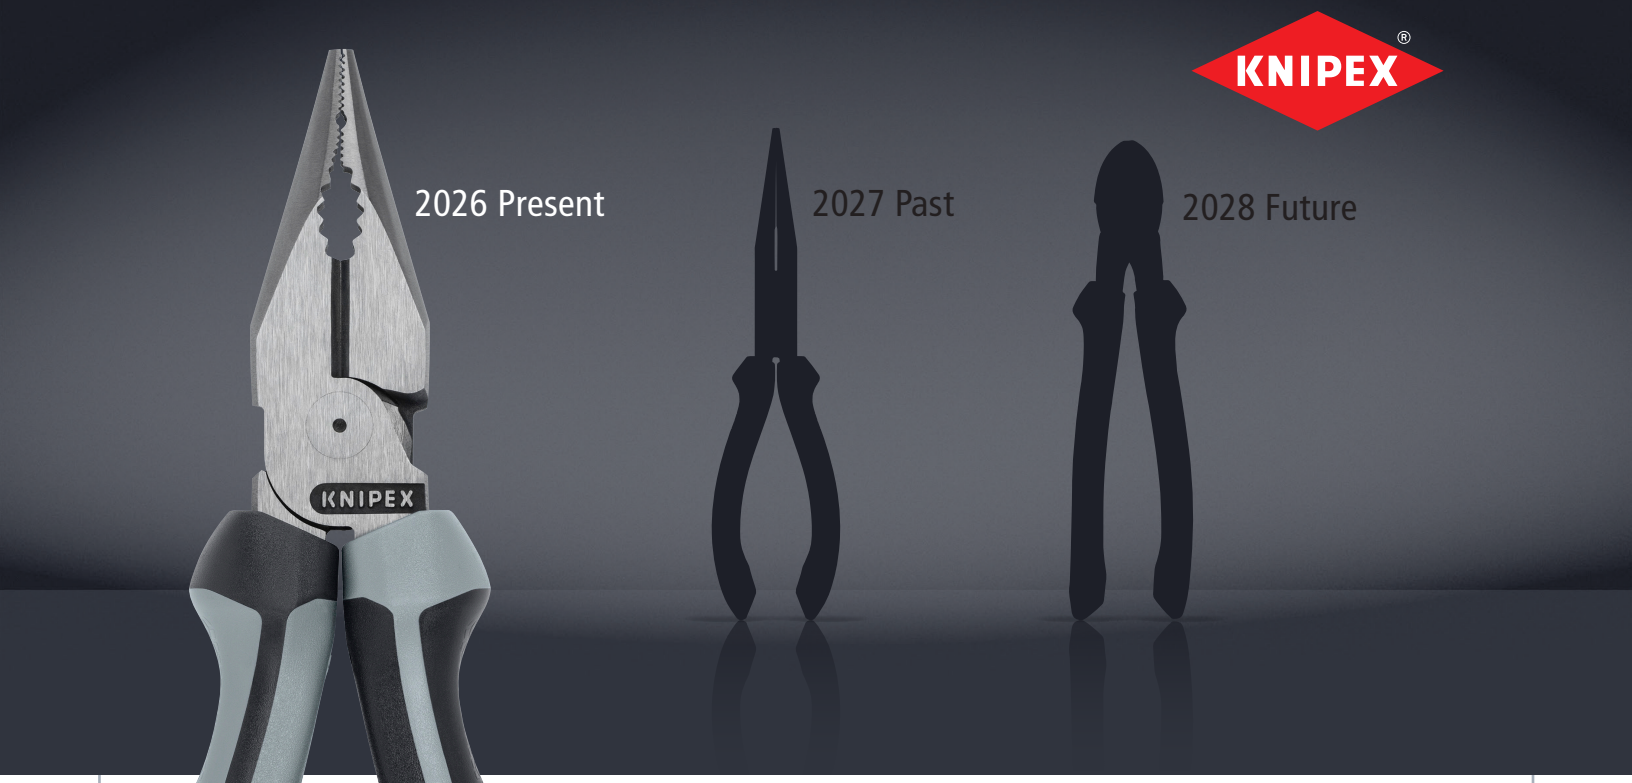
3 YEARS | 3 ERAS | 3 PLIERS



PART #: 08 22 185 S01
7 1/4" NEEDLE-NOSE COMBINATION PLIERS
+ KNIPEXTEND

Precise gripping, cutting and holding with special edition handles.

Past. Present. Future. KNIPEX Always.

KNIPEX is kicking off the holiday season with a festive three-year concept. Three exclusive, limited-edition pliers to take users on a journey from the **past to the present and through to the future.**

We begin in the **present** with the special edition 7 1/4" Needle-Nose Combination Pliers. Featuring black & gray comfort handles equipped with our KNIPEXTEND interface, these pliers are equal parts useful and rare.

Slim head design and pointed jaws allow for access in confined areas and the milled groove in the gripping area permits small parts such as nails, pins and bolts to be held and pulled. 3 points of contact provide powerful gripping without slipping and induction hardened cutting edges easily cut soft, medium-hard, and hard wire.

Plus, with limited-edition, sleek packaging, this is a perfect gift for any tool enthusiast or KNIPEX collector.

There's no time like the **present** so order now!

While supplies last.

ACT FAST! While Supplies Last!

For all your **present-day** projects, the limited-edition 7 1/4" Needle-Nose Combination Pliers.

- For use when working in confined areas due to slim head design and pointed jaws (anti-twist)
- Gripping surfaces with special convex contour provides a stable 3-point contact for secure gripping of flat parts
- Milled groove in the gripping area permits small parts such as nails, pins and bolts to be held and pulled
- Long service life and stable tips
- Cutting edges induction-hardened (approx. 64 HRC) for easy cutting of cable and soft, medium-hard and hard wire
- The asymmetry of the pipe gripping area allows round parts as well as hexagonal profiles to be gripped, held and turned powerfully without slipping
- Comfort handles made of three components for optimized handling and includes two KNIPEXTEND interfaces for accessories
