

Quick Start Guide

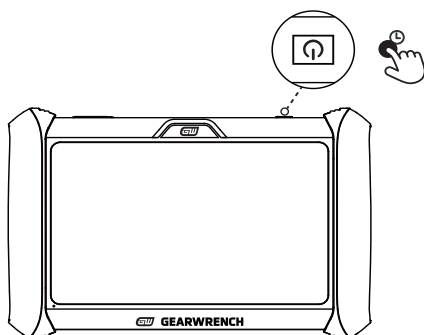

7 INCH WIRELESS BIDIRECTIONAL TABLET

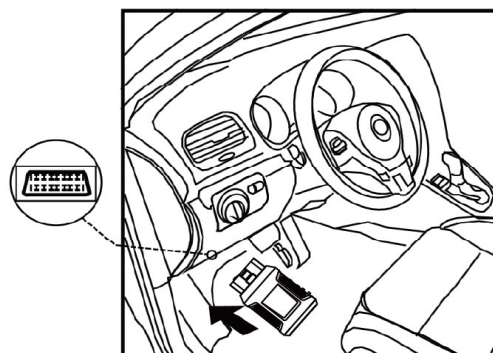

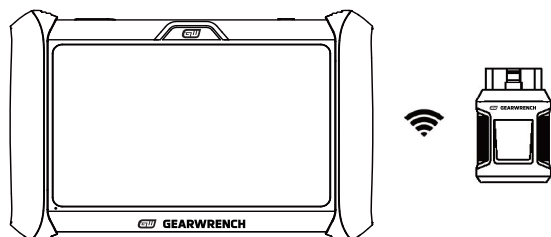

IMPORTANT: Before using GWSMART07, please thoroughly read this quick start guide. The warranty will be voided if any personal loss results from improper operation.

Getting Started

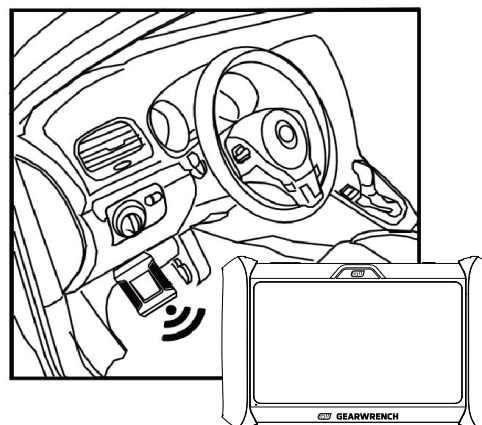

- Press and hold the Power button to turn on the tablet
- Select App language and start the activation
- Input your E-mail address and click **OK** to complete the activation

**1**

- Plug the Vehicle Control Interface (VCI) into the OBDII port on the vehicle

**2****3**

- Wait until the Wi-Fi connection indicator (BLUE) lights up from the VCI

4

- GWSMART07 is now ready to scan the vehicle

Software Update

IMPORTANT: Ensure that the GWSMART07 is connected to the Internet and has sufficient memory. It is also recommended to connect the GWSMART07 tablet to a power source during updates to prevent automatic shutdown due to low battery. You can check the number of available software updates for car makes by looking at the bubble at the top right of the UPDATE option in the main menu.

- After entering the **Update** page, the list of all available updates will be displayed
- Download software:
 - a) Click the **Update All** button to download all available updates
 - b) Click **Update** on the far right of each item to download the specific software
- After the software is downloaded, it will be automatically installed and overwrite the previous version of the software
- If the download is interrupted for any reason, the program will save the progress until you attempt to download again

Sending Diagnostic Report

- Complete the diagnosis procedure
- Enter the vehicle information on the following screen
- Return to the main screen and click "Report"
- Select the corresponding report to view its contents
- Click the "Share by E-mail" button located at the bottom-right corner of the screen
- Enter your email address and click "Send"
- You will receive an email with the report shortly
