REINOLDMAX

NEW GENERATION FOAM FIRE EXTINGUISHER

Do you have ONE ?

- Ultra-powerful – certified to EN 16856 standard
- Easy to use – safe for the whole family
- Compact and lightweight design – easy to handle and store
- Innovative spray nozzle – quickly extinguishes fire without spreading it
- Eco-friendly – PFAS-free formula
- Cooling agent – effectively reduces surface temperature
- Compatible with lithium battery fires
- Phosphorescent mounting bracket included – visible in the dark

A simple, fast, effective, and safe
solution to control early-stage fires.

REI500/PFAS

The HERO 911 Reinoldmax 500 ml (PFAS-free) outperforms the competition in both quality and reliability. Certified in Europe under the EN 16856 standard for portable aerosol extinguishers, it meets the highest safety requirements. Its performance is equivalent to a 2A to 3A classification based on a comparative analysis of effectiveness levels according to North American standards.

This extinguisher is intended for residential use and is not recognized as a portable fire extinguisher under NFPA 10.
