

GKM18V-20N AS

ENGINEERED FOR METAL

ENGINEERED SPECIFICALLY FOR METAL
Handles conduit, steel studs and more, with a motor producing 0-4,250 rpm (battery sold separately).

ROBUST CONSTRUCTION PROVIDES DURABILITY

ROBUST CONSTRUCTION
Adjustable stainless steel footplate provides durability, accurate cutting depth, and cut-line guide.

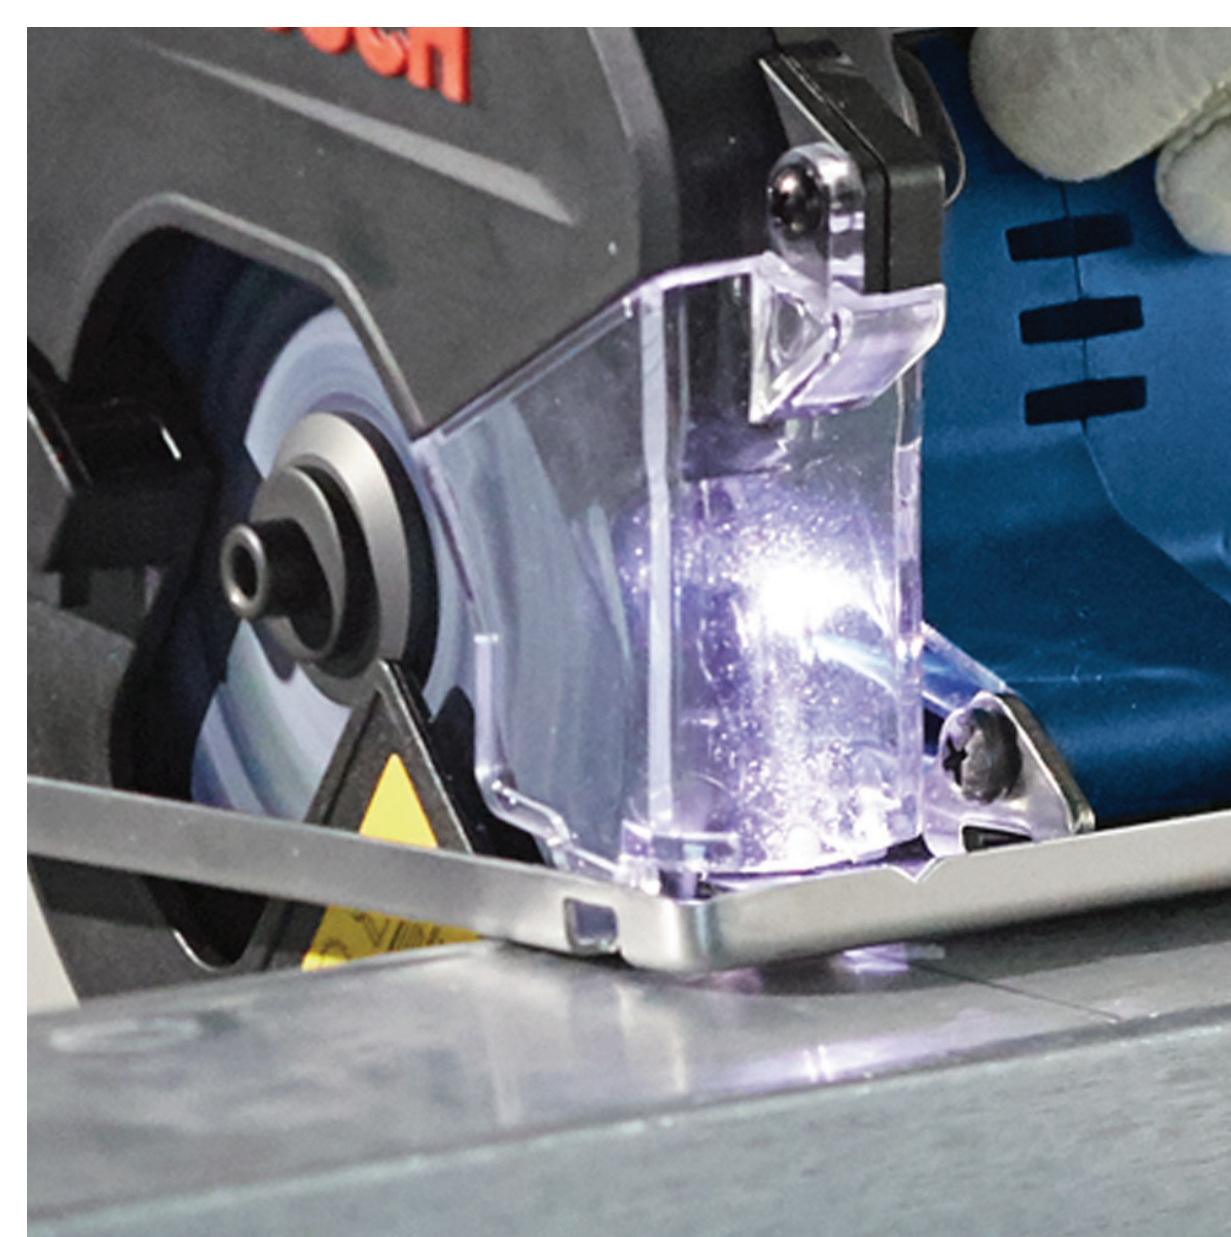

FASTER CLEAN UP ON THE JOBSITE

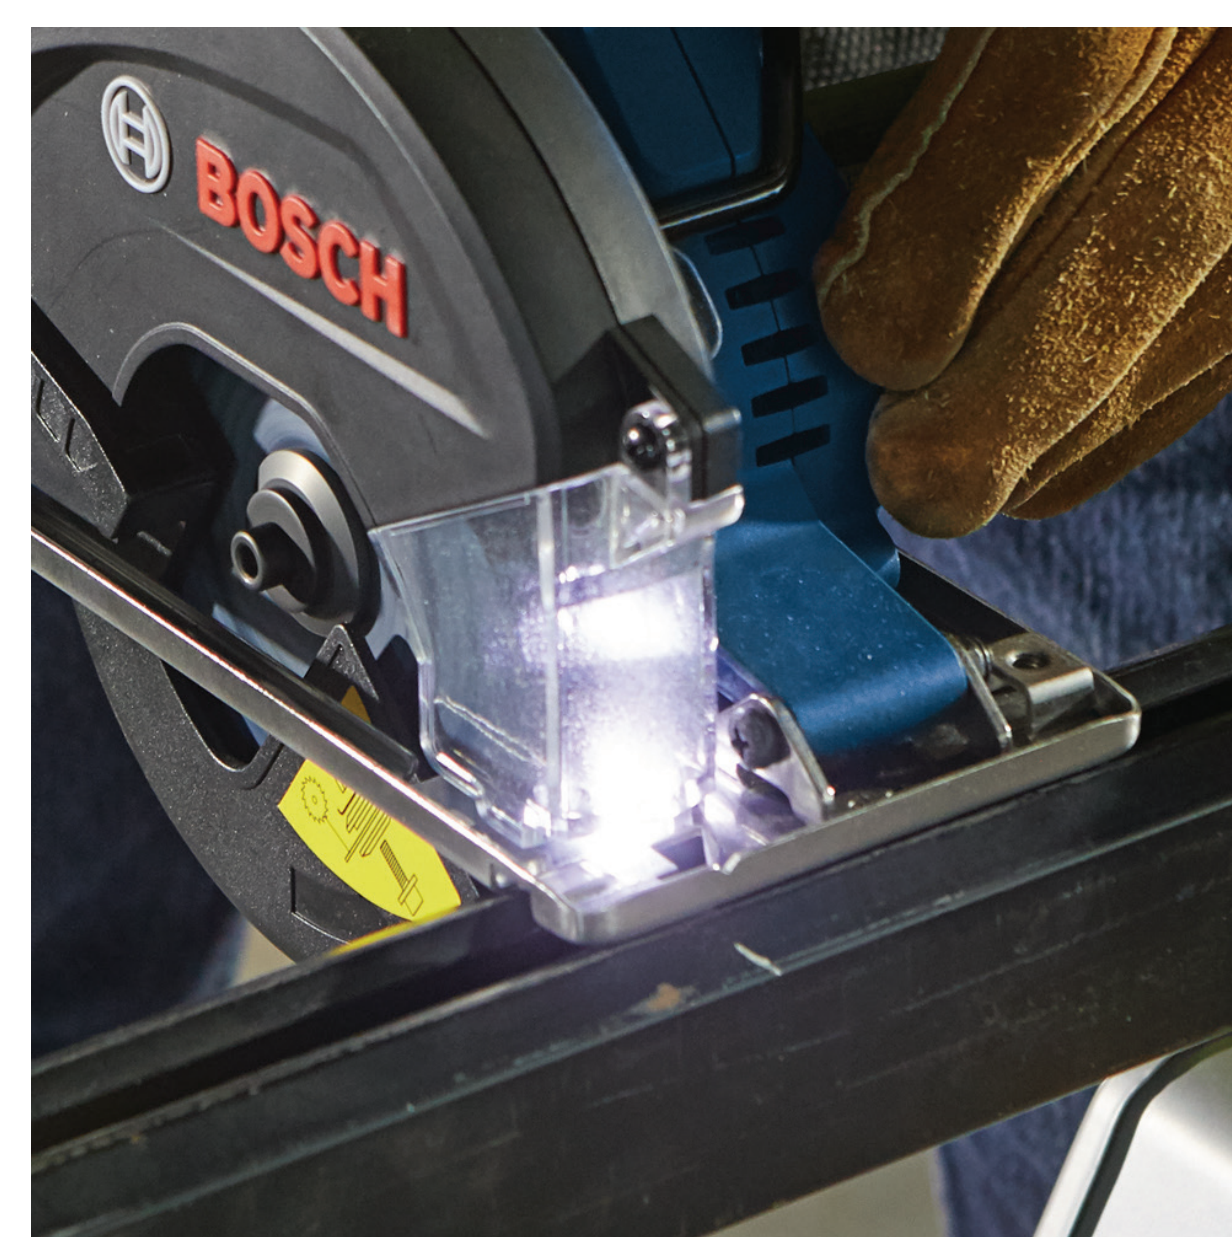

INTEGRATED CHIP COLLECTOR
Collects metal shavings during cutting for faster clean up on the jobsite.

5-3/8 IN. METAL-CUTTING BLADE
Provides a 2 in. cutting capacity.

IMPACT-RESISTANT CLEAR WINDOW
Aids cutting visibility.

LED LIGHT
Illuminates the cut line in dark work areas.

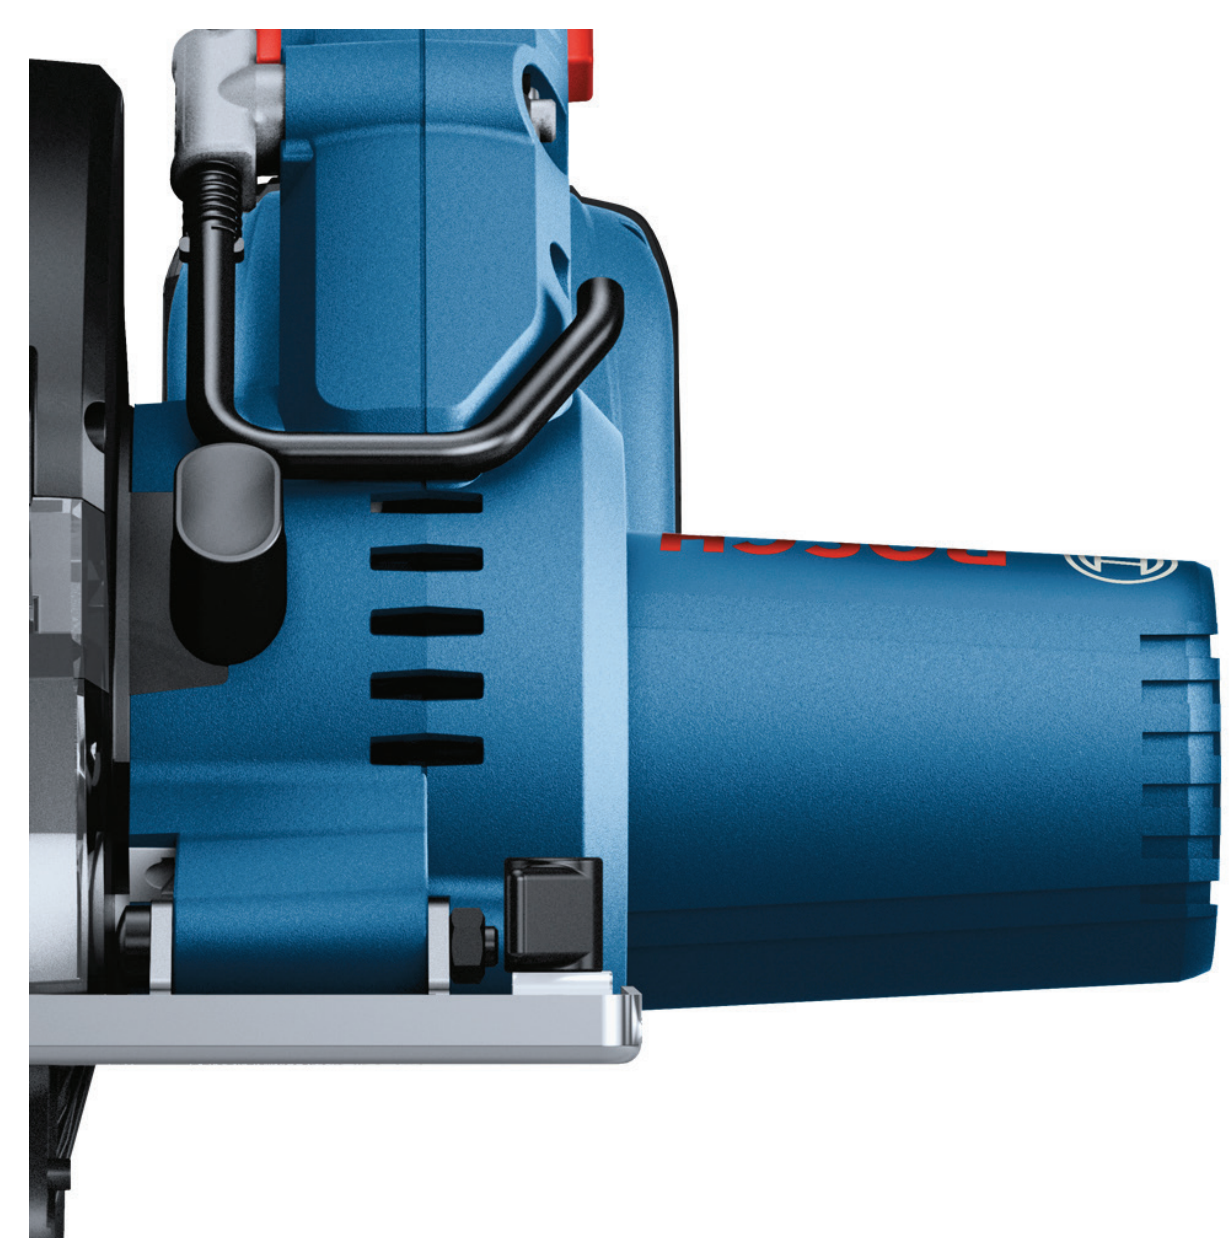

POWERED BY CORE18V
The GKM18V-20N is recommended for use with Bosch CORE18V 4 Ah and 8 Ah Batteries (sold separately) that are light in weight and high on power.

SAW HOOK
Allows tool to be quickly hung between cuts.

ELECTRONIC CONVENIENCE BREAK
Quickly stops the blade for less downtime between cuts.

ELECTRONIC MOTOR PROTECTION
Reduces the risk of the motor overloading or overheating.

BALANCED DESIGN
Tool is not too heavy, front to back.
