220px x 220px)

Professional Performance
Bosch offers a full line of carbide bits, carbide cores and steel points and chisels for hammer drills, rotary hammers and demolition hammers.

Unrivalled Destructive Power
Extremely robust and aggressive tungsten carbide four-cutter tip with inclined side cutters for increased speed and power.

Drilling Accuracy
Active centering tip with wear marks increases accuracy for precision anchoring applications.

SDS-max Shank
Designed for use with SDS-max compatible rotary hammers.

BOSCH

SDS-max® ROTARY HAMMER BITS

SpeedX™

PATENTED FOUR-CUTTER HEAD

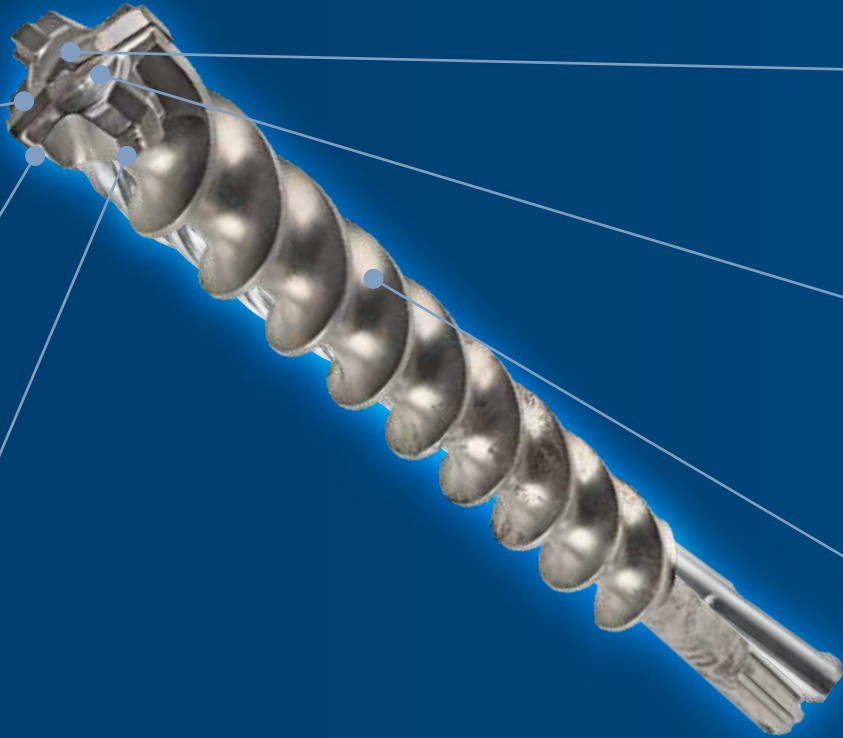

Provides optimal performance

WEAR MARK

Indicates accurate hole diameter; ensures secure fitting of anchors

COMPACT HEAD

For fast dust removal and longer life

ACTIVE-CENTERING TIP

Optimum guidance when drilling in concrete and reinforced concrete

TUNGSTEN-CARBIDE TIP

Provides superior wear resistance in tough applications

LARGE FLUTE VOLUME

Fast drilling, dust transport and less clogging
