

GLM165-27CG

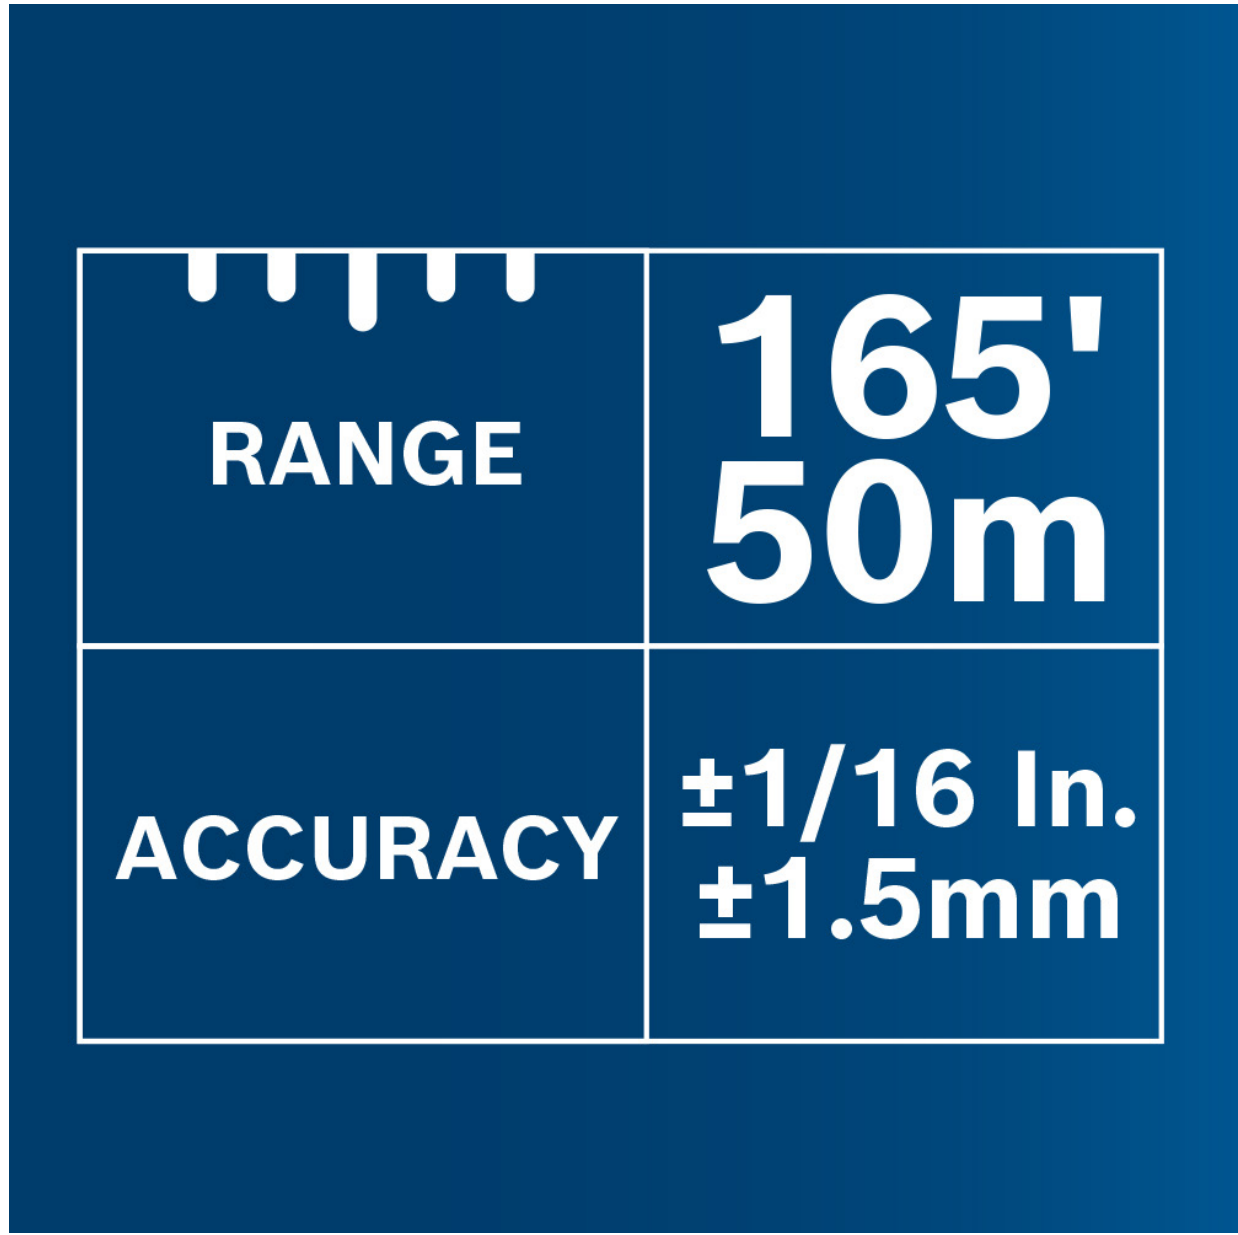

Measurements for Any Application
The Bosch BLAZE™ GLM165-27CG is a fully featured tool with an easy-to-read color display, great accuracy, an inclinometer for tilt angle and reinforced housing for brutal applications.

Bluetooth® Smart 4.2 Technology
Allows measurements to be digitally transferred to a smart phone or tablet using the free Bosch MeasureOn app.

BLAZE™ Measuring Made Easy
Default real-time measurement mode immediately provides accurate measurement that automatically adjusts closer to or farther from the target.

Accuracy and Long-Range Measuring
Provides accuracy up to ±1/16 In. and measures up to 165 Ft.
** Subject to accuracy deviation on stakeout functionality for products with certain date codes.

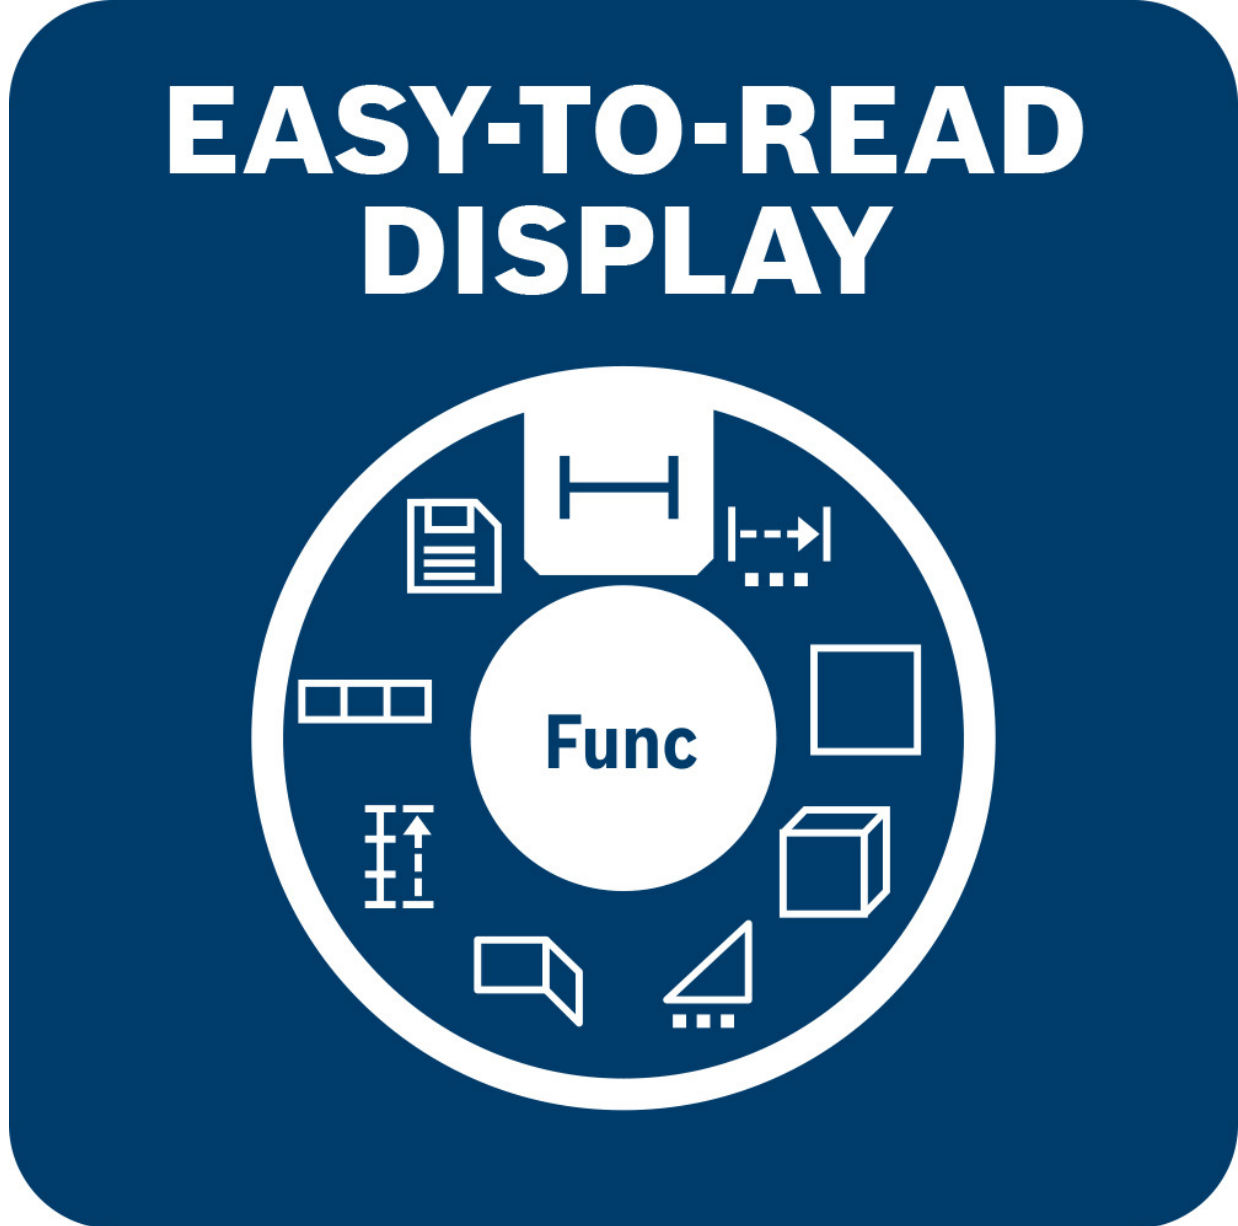

Dual Power
Use either the optional GLM-BAT for greater runtime (sold separately) or standard AA batteries to power the tool.

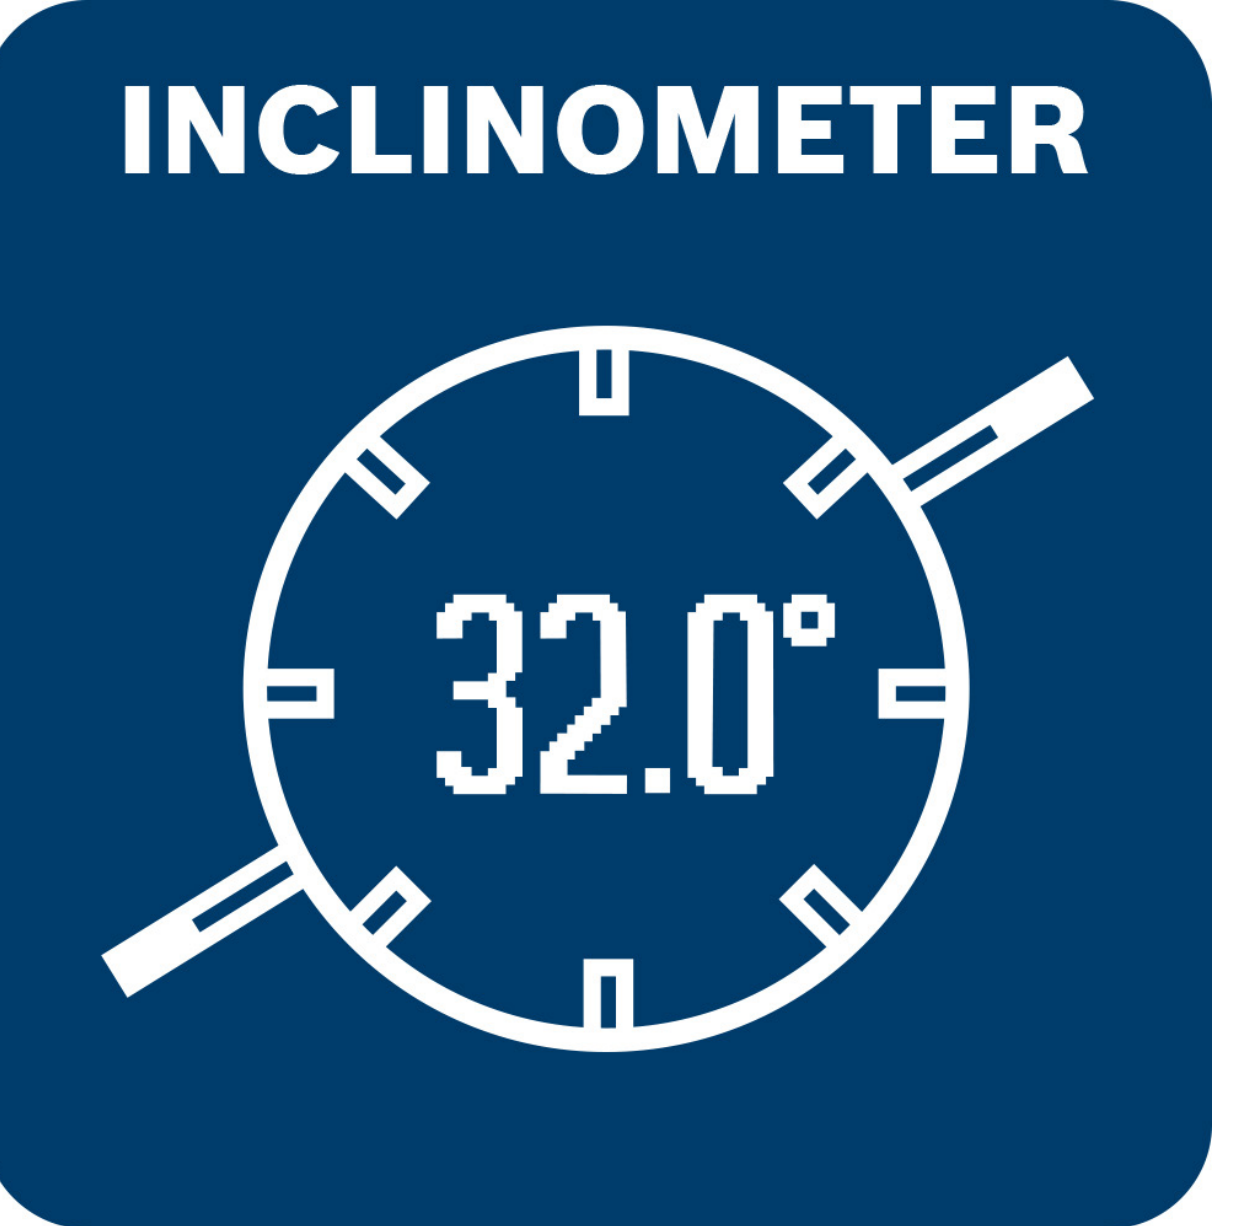

Green-Beam Laser
Generates a point/dot that's up to 4X brighter than standard red beams.

Full Rubber Overmold Housing
Helps protect every major impact point, with a design similar to a roll cage.

Easy-to-Read Backlit Color Display
Illuminates numbers with distinct resolution, for work in low-light or no-light conditions.

Inclinometer
Shows the tilt angle up to 360° for easy angle and indirect measurements.

Haptic Feedback
Vibrates tool for measuring confirmation on loud jobsites.

Rounding Button
Rounds the measurement to the fraction that best suits the application.
