

## **Sand and Shape Work Pieces Seamlessly**

With a 7.5 amp motor and 3,300 to 7,300 orbits per minute, the Bosch Power Tools - GET75-6N - Electric Orbital Sander gives you the best result every time. Woodworking is easier with the GET75-6N as it is powerful, versatile and comes with variable speeds as well.

## **A Versatile and Simple Tool**

This sander and polisher by Bosch comes with low vibration and an ergonomic design. The grip your hand stays comfortable while counterweight balance reduces hand fatigue from vibration. All so that you can work longer. Use this sander for fine finishing large surfaces, corners or edges and any surface contour. You will be able to make arcs, curves, contours and more with ease. The attachments are easy to change with no tool required.

## **Simple to Clean**

Not only is the GET75-6N Electric Orbital Sander easy on sanding and ergonomic to use, but also comes with a dust box so that you can dispose of it with ease and keep your environment clean. This box collects and keeps dust away.
